

Wireless network access

There are several wireless networks (WLAN) in NTNU's buildings, and you should use the network called **ntnuguest**.

SSID: **ntnuguest**

After connecting to the WLAN, open your web browser. The following page should appear automatically in your browser when you try to load your default start page.

NTNU - Wireless Guest Access

Gjester / Guests

Email address:

Informasjon/Information

 **Gjester**
Velkommen til NTNUs gjesteportal. Her kan du som besøkende få begrenset tilgang til internett. Skriv inn en gyldig e-post adresse og logg inn. Følgende tjenester er tilgjengelig:

- Web (http/https)
- VPN

Logge ut
Du kan logge deg ut når som helst ved å skrive **wireless.ntnu.no** i nettleseren din og deretter trykke "Logout"

 **Guests**
Welcome to NTNU's Guest Access. As a guest, you will get a limited access to the internet. Please provide a valid e-mail address and log in. The following network services will then be available:

- *Web (http/https)*
- *VPN*

Logout
*To logout, type **wireless.ntnu.no** in your webrowsers address-field. Then press "Logout"*

- Type in your e-mail address
- Klick the submit button

If everything works OK, you will be redirected to your start page.

The *ntnuguest* network has the following limitation: "You will only be admitted to http, https websites and VPN (ipsec)."

Phone: +47 73591500

E-mail: orakel@ntnu.no

Alternatives to the ntnuguest WLAN

Eduroam

If you have an eduroam account, you may use it at NTNU.

SSID: eduroam

In the City centre

Wireless Trondheim

(<http://tradlosetrondheim.no/index.php?la=en>) provides outdoor

WLAN in most of the City centre.

You can buy access with your credit card, or use your eduroam account.
