- Open URL link

×

Click "**Export**" (**1**) in the menu to the right to import a single reference. Choose "**RIS format**" (**2**).

Continue with "**Export**" (**3**).

Finish with "**Download**" (**4**) in the new window that opens.

Ready for download

Export ready for download.

Download > **4**

What happens next depend on your web browser.

**Mozilla Firefox:** Click on the file to open (5) and the references will be imported into your library.

**Google Chrome:** Click on export file (open) to get the references imported to your library (6).

**Internet Explorer:** Click on “**Open File**” to get the references imported to your library (7).

**Safari (Mac):** Export file will be downloaded and available in Finder. Click on import file in Finder and drag it over the EndNote icon in the bottom of your screen. The references will now be imported to your library.

EndNote will now only list the imported references. We recommend that you check a couple of references to see that the import was correct.

Click on “**All references**” in the left pane to see all references in the library.
