ABOUT INTERNSHIP PROGRAM!

During your engineering internship, interns will learn soft skills like time management, accountability, organization, and teamwork. Additionally, they will be immersed in the engineering world, which will help develop knowledge of quantitative aptitude and effective management of engineering projects.

Internship Outcomes

Learn how to plan and execute technical production	Hands-on experience on the tools and softwares
Take care of some basic tasks and then move further up once they grasped them.	Collaborate with a team on a shared goal.
