

## The minister of research visited NTNU

The Minister came on a “become-acquainted-with” visit on December 18th. This was her first visit to NTNU as a Minister.

She coined a hvid in silver. ”How many researchers can I employ for this coin?”, she wondered. ”At the Archbishops time you could buy a goat for 18 hvids. How many researchers you can have for a goat I don’t know”, replied Lohne.
