Credits: 7.5
Grades to be announced on: 18th June 2014
Permitted examination support material: None

Language: English
Number of pages: 2
Number of pages enclosed: 0
Please answer both question one (1) and question two (2). The two questions carry equal weight.

1. With reference to this course’s readings for GEOG 3053 on the field of Globalization and Development there are some key concepts which are essential for understanding social change. Please define and explain the background of two concepts of your choice.

Do not use more than 2 pages per concept.

2. Please discuss:

Ian Goldin and Kenneth Reinert (2012; 17) claims that there is a confusion about globalization presented in public and academic debates. In their view globalization can be managed so that it benefits are more widely shared than they are today and so that it’s negative impacts are identified and mitigated. Achieving these outcomes is a global, national and local responsibility. Please provide examples from real life situations to illustrate strengths and weaknesses of their argument.
