Grades to be announced on: 8th January 2015
Permitted examination support material: None

Language: English
Number of pages: 2
Number of pages enclosed: 0
Exam GEOG2002 autumn 2014

Answer both assignment 1 and 2

Assignment 1:
Please explain the following concepts with reference to the course literature:
- Human Development Index (HDI)
- Basic Needs Approach
- Import substitution industrialization

Assignment 2:
Development and urban bias
In the 1950s and 60s urban areas were the centers for development intervention following the modernistic approach to development at the time. Since then development practice has at different times been accused for having an ‘urban bias’ focusing on what is seen as a relatively better off urban population. Please analyze and discuss different views on the city as an arena for development. Discuss in this process also the usefulness of the common distinction between urban and rural development. Use concrete examples to illustrate your points.

Assignment 1 counts 40% of the grade while assignment 2 counts 60%.
