Answer both question 1 and question 2. Question 1 counts 30 % and question 2 counts 70 %.

Question 1

Define and discuss two of the following three concepts:

- Social and political remittances
- Migration hump
- Translocal and transnational

Question 2

Answer either a) or b)

a)

Linking micro, meso and macro levels in migration and development: Different theories and different scholars emphasise different levels when they discuss migration and development. Introduce how different theories deal with and are concerned with different levels and provide examples to show what the connections between migration and development may be at those different levels. Additionally, discuss how the different levels are interconnected.

b)

Different social positions (gender, class, ethnicity etc.) influence the ways in which migration is pursued and the dynamics between migration and development. Discuss the ways in which social positions may influence the migrants' ability and interest towards transnational/translocal engagements. Where relevant, include theoretical perspectives on the relationship between migration and development. Please provide examples.

You may refer to the definitions in Question 1 when answering Question 2.

Good luck!
