## **Examination paper for GEOG3525 - Landscape, Planning and Management**

**Academic contact during examination:** Frode Flemsæter  
**Phone:** 73 59 19 42

**Examination date:** 25<sup>th</sup> May, 2016  
**Examination time:** 4 hours  
**Credits:** 7.5  
**Grades to be announced on:** 15<sup>th</sup> June, 2016  
**Permitted examination support material:** None

**Language:** English  
**Number of pages:** 2  
**Number of pages enclosed:** 0

**Answer question 1 or question 2.**

**Answer question 1 or 2 in either Norwegian or English.**

**Question 1:**

For over a century there have been several shifts in the meaning of the concept of landscape. Based in the course literature, explain how and why the meaning of the concept has changed during this period.

Because there have been shifts in the meaning of landscape, we need, according to George Henderson (2003, 179), to clarify “what it is we talk about when we talk about landscape, and what else we then might have to say”. Discuss how and why landscape is a lens on ‘other’ things than the landscape itself. Use two examples to illustrate.

**Question 2:**

“... over the past 20 years or so, landscape scholars, and in particular American landscape scholars, have engaged explicitly and critically with theories of justice ...” (Setten & Brown 2012, 245).

Explain how landscape, justice and morality are related. Use thereafter two examples from the course literature to illustrate their relationships.
