Examination time: 6 hours
Credits: 15
Grades to be announced on: 9th January 2014
Permitted examination support material: None

Language: English
Number of pages: 2
Number of pages enclosed: 0
Exam questions GEOG3505, autumn 2013

Answer question 1 or question 2. Write your answer in either Norwegian or English.

**Question 1**
For over a century there have been several shifts in the meaning of the concept of landscape. Because there have been shifts in the meaning of landscape, we need to clarify “what it is we talk about when we talk about landscape, and what else we then might have to say” (Henderson 2003, 179). Discuss how and why landscape is a lens on other things than the landscape ‘itself’. Use two examples to illustrate.

**Question 2**
“That landscape and memory are mutually constitutive of one another is a fact well-established by several decades of careful research and original scholarship into the politics of collective memory and urban space” (Dwyer and Alderman 2008, 185).

Explain how and why landscape and memory are constitutive of one another. Discuss thereafter the role of landscape in the transmitting of memory. Use two examples to illustrate.
