Vedlegg 5

Kartfigurer for 373 lokaliteter (myrkompleks) kartlagt i forbindelse med høgmyrkartlegging på Østlandet i 2013-14 er samlet i dette vedlegget. Tabell 5-1 gir en oversikt over lokaliteter og figurer. Koder for myrmassivtyper følger tabell 1, mens tjern og innsjøer er angitt med «J» (kodetype C i tabell 2). Koder for fastmarksholmer er ikke vist på figurene. Koder for myrmassiv er som hovedregel vist inne i sine respektive myrmassiv, men der det er for lite plass er koden vist ved siden av det aktuelle massivet.

Tabell 5-1. Liste over hvilke figurer som viser hvilke lokaliteter. ID viser til nummerering i Myrbasen ved NTNU Vitenskapsmuseet.
