

Leveraging future drivers to transform learning approaches

Læringsfestivalen 2017

the
Futures
Lab

Workshop introduction (2/2)

How each of these drivers
be best **applied** and **assessed**
in the instructional design
of a **blended learning**
course?

Decentralized & universal education

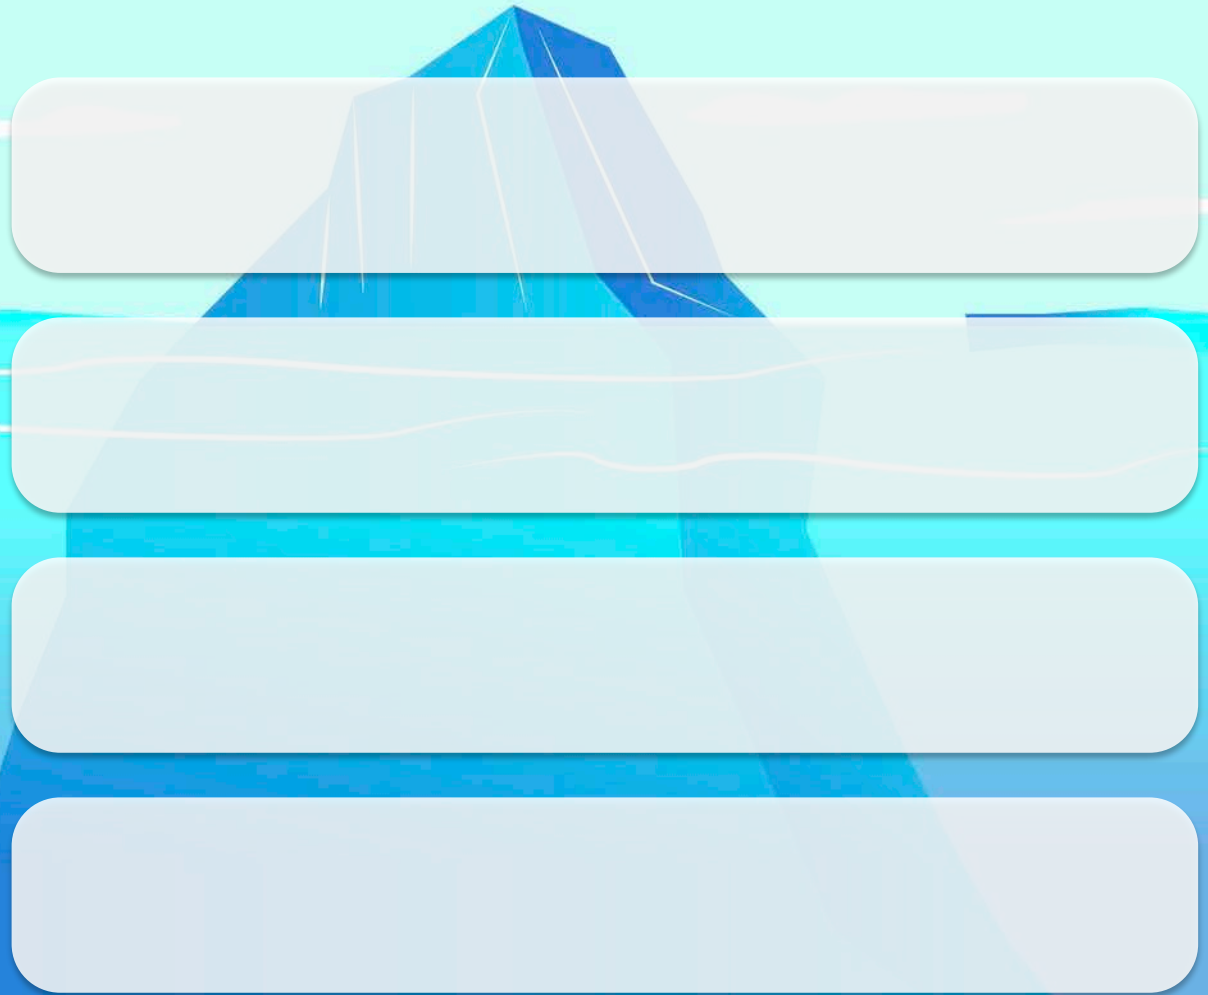

Causal Layered Analysis

The diagram features a large iceberg floating in a blue ocean under a light blue sky with a few white clouds. The iceberg is divided into four horizontal layers, each corresponding to a label on the left. The top layer is above the water, while the three bottom layers are submerged. Each layer is represented by a light blue rounded rectangle on the right and an orange rounded rectangle with white text on the left. The layers are labeled from top to bottom: Litany – Concept, Systemic – Context, Worldview – Paradigm, and Mythology – Values & signifiers.
