Reading ... or resource lists?

Just books?

Journal Articles

The screenshot displays the Wiley InterScience website interface. At the top, the Wiley InterScience logo is visible, along with navigation links for Home, Medical, Veterinary and Health Sciences, and Imaging. A banner for the "New Journal for 2008" highlights free online access for institutions. The main content area features the "Journal of Biophotonics" article page, including a cover image, volume information (Volume 3 Issue 1-2, Pages 9-10), and a special issue on biophotonics for dermatology. The article is authored by Valery V. Tuchin, Anna N. Yaroslavsky, Steven L. Jacques, and Jürgen Popp. The page includes links for downloading the citation, requesting permissions, and accessing the full text (PDF, 66K). A sidebar on the right offers search options by title or citation, as well as a search bar for Wiley InterScience. At the bottom, there are links to related articles and a note that Wiley InterScience is a member of CrossRef.

The screenshot shows the Arthritis Care website. The header includes the Arthritis Care logo, navigation links (Home, About Arthritis, Living with Arthritis, Get Involved, In your Area, Campaigns, News Room, Publications and Resources, About Us), and a contact number (0808 800 4050). The main content area is titled "Physiotherapy" and describes its role in managing arthritis. A sidebar on the left lists various topics under "About Arthritis", with "Treatments" expanded to show "Physiotherapy". A search bar is located in the top right corner.

Physiotherapy

Physiotherapy plays an important role in managing arthritis. It can help you to maintain independence through improved mobility, strength and flexibility.

Used along with medication it can help to minimise pain and encourage independence.

Simple exercise plan

Exercise is especially important for people with arthritis. It can help to reduce pain and increase mobility.

A physiotherapist has a detailed understanding the body and movement. They work with people with limited mobility – from injury, arthritis or another condition – providing advice, guided exercises and referral to other services.

Physiotherapists can devise simple exercise programmes that you can practice at home to help you build your strength and flexibility.

How do I get to see a physio?

Physiotherapists are often based in hospital departments, but some work in health centres. They may work alone, or within a team of healthcare professionals.

You can be referred by your GP or rheumatologist, and in some areas you can refer yourself. Some people choose to pay to see a physiotherapist privately.

What happens?

In an assessment, the physiotherapist will examine your posture, muscles, and the way you walk. They will ask about the activities which cause you pain.

They will offer you advice, and design a personalised treatment plan. This may include:

- exercise
- posture
- hydrotherapy
- massage

Welcome to Chemistry Central

Chemistry Central publishes peer-reviewed open access research in chemistry. Chemistry Central is part of the [BioMed Central](#) group.

Chemistry Central publishes a range of online open access journals, and provides links to other online open access journals of interest published by BioMed Central.

The benefits of open access:

- > free and permanent online access
- > expert peer review, rapid publication
- > no space constraints
- > authors retain copyright to their work
- > authors can post their articles on personal or institutional websites
- > data can be redistributed, reused and translated freely

Our journals

Chemistry Central Journal

[Chemistry Central Journal](#) publishes articles in all areas of chemistry and related subject areas. Over 200 senior scientists from more than 35 countries make up the journal's international editorial board. All articles are indexed by PubMed, Scopus, CAS, Web of Science and Google Scholar.

[View latest articles](#) [Submit a manuscript](#)

Journal of Cheminformatics

[Journal of Cheminformatics](#) publishes articles in all aspects of cheminformatics and molecular modelling including chemical information systems, software and databases; chemical structures; computer and molecular graphics, molecular design, expert systems, QSAR, and datamining.

[View latest articles](#) [Submit a manuscript](#)

Journal of Systems Chemistry

[Journal of Systems Chemistry](#) covers complex molecular networks & emergent phenomena; catalytic & autocatalytic systems; dynamic combinatorial chemistry; information-processing by chemical reactions; bottom up approaches to synthetic biology & chemical evolution, etc.

Inhibitor of key malaria parasite enzyme
BMC Biochemistry 2010, **11**:4
Amodiaquine inhibits the activity of Plasmodium falciparum phosphoethanolamine methyltransferase and, as this enzyme is essential for survival of the malaria parasite and is not found in mammals, the inhibitor is an ideal candidate for drug development.

A bacterial bifunctional regulatory enzyme
BMC Biochemistry 2010, **11**:1
A bacterial homologue of the maize orthophosphate dikinase regulatory protein, cloned from *Escherichia coli*, catalyses both

Key Development Principles

Key Development Principles

- Pay close attention to the student experience
- A simple drag and drop interface
- Pay attention to the library acquisition workflow
- Support existing workflows. Export to use elsewhere
- Enable institutional branding, look and feel
- Use your existing infrastructure
- Enable automatic harvesting of credible metadata

Talis Aspire Learning, connected

Supporting the strategic proposition

Strategic support

- Enhance the student learning experience
- Support teaching excellence
- Encourage engagement and Technology Enhanced Learning
- Automate processes and improve efficiency
 - Empower academics to manage their lists
- Maximise the value of library e-resources
- Integrate with your existing ICT investments

Talis Aspire Learning, connected

... to summarise ...

Reading Lists

All books recommended can be purchased direct from the listed publishers. See below for contact details for some of the publishers mentioned in the reading lists:

Pearson Education and FT/Prentice Hall - <http://www.pearsoned.co.uk>
 Palgrave Macmillan - <http://www.palgrave.com/contactus/index.asp>
 Thomson Learning and Cengage Learning - Tel: +44 (0)20 7067 2500
 CIPD (Chartered Institute of Personnel and Development) - <http://www.cipd.co.uk/Book>
 McGraw-Hill Higher Education - <http://www.mheducation.com/home/>
 Butterworth-Heinemann - <http://www.bh.com>
 Philip Allan Updates (Hodder Education Group) - Tel: + 44 (0)20 7873 4000
